

# CSS LAYOUTS

Week 6.1 - IST 263

Questions from last class ??

# TODAY'S CLASS

- Block & Inline Elements
- CSS Layouts
- Box Model

# BLOCK / INLINE

- Block Elements

These HTML elements form a visible block on a page. Eg: List, Paragraph, etc

- Inline Elements

These elements are those that are contained within block-level elements and surround only small parts of the document's content. Eg: Span, Anchors (links), strong, em, bold, etc

# DOCUMENT FLOW

- Treats all block elements as rectangle boxes
- All elements are placed relative to their parent element
- They are left aligned, starting at (0, 0)

# CSS LAYOUT PROPERTIES

3 properties that help override default behavior
